WORK EXPERIENCE / INTERNSHIP

- The Mango Jelly (Frontend Developer)

2022-07 - 2022-08

- Working on creating an interactive large-scale react web app for a community of people mainly for sharing content on the site, messaging people, showcasing their work as a creator, and creating their creator profile.
- Learned how to manage and write a react app for a business purpose client and how to structure code efficiently.

- Pillai College of Engineering (Web Developer)

2021-12 - 2022-05

- Worked with a team of web developers for creating a college concert website using flask, python, and SQL. Managed the team of web developers by assigning them tasks based on their strengths, reviewing their work weekly, and reporting to our internship guide.
- Learned how to start the process of building a website from UI design to hosting the website.

- Learnovate Ecommerce (Web Developer)

2021-06 - 2021-07

- I was assigned 7 different tasks of creating simple website pages using HTML and CSS to test our basic CSS understanding.
- I was selected for a team leader position here in the first week to test out my skills as a leader and managing a team of new interns.

- The Sparks Foundation (Web Developer)

2021-06 - 2021-07

- As a beginner-level internship, created a simple functioning banking website using flask and python to provide simple person to person transaction, displaying of users and their transactions.

HOBBIES

- Trekking
- Working out
- Watching movies and series
- Long walks
- Exploring new places
